

**WORKSHOP**  
**ON**  
**TEACHING METHODS AND STRATEGIES**

Resource Person: Dr. I. Vara Lakshmi, Principal, Yalamarty college of Education,  
Visakhapatnam.

Date: 15/7/2017

One Day workshop was organized for faculty members of Viswanadha Institute of Pharmaceutical Sciences to offer more insight into teaching methods and strategies.

“ A good teacher is a craftsman to mold best students and best teaching promotes better learning. Teaching is an art to make a perfect human being, and inducing the behavioral change in the thought and communicating a message with impact on the audience.”

**METHODS OF ENHANCEMENT OF EFFECTIVENESS OF A TEACHER:**

- 1 .Seize the moment
2. Involve the student in playing ‘begin with from what the student knows
3. Move from Simple To Complex
4. Students Preferred Learning Style
5. Set goals by learning domain
6. Plan for periodic tests
7. Reward the students

**Different ways of teaching:** To develop skill, teacher needs patience, hard work and command over the subject:

Method, Approach and Technique are also important

**Types of teaching:**

Active, passive, learner oriented and teacher oriented

Lecture, project, laboratory, dogmatic and heuristic.

## **Teaching method vs teaching strategy**

Teaching method involves only presentation and control over the students, whereas strategy involves presentation, attitude of the student abilities and task analysis

**Development of teaching methods:** Micro and Macro methods involve skill time and presentation .14 skills were identified in teaching by Ryan and Allen

## **Individual skills of teaching: Herbartian Approach**

Lesson planning, Presentation, induction, usage of audio visual aids, reinforcement, questioning, stimulus variation and silence and body language “
