VISAKHA STEEL GENERAL HOSPITAL VISIT

As a part of academic curriculum, final year B.Pharmacy students (2015-2019) batch visited “**VISAKHA STEEL GENERAL HOSPITAL**”, under the guidance of Ms. A. Suneetha Devi, Asst. Prof. They saw the dispensing unit, where medicines are dispensed for both the In-patients and Out-patients. There they also observed a special dispensing process of online and off-line prescriptions. Pharmacists explained the systematic way of working. There they acquired the knowledge about the e-prescriptions i.e online prescriptions which form the direct contact of prescribers with the pharmacist so that there will be less scope of prescription errors.

All students and staff visited the medical stores where they store different drugs and surgical items, which consists of different rooms:

Room 1- Medical Store-1

Medical store -1: It consists of:

- i) Anti-hypertensive drugs like Diltiazem 30mg, carbidopa 10mg+ Levedopa 100mg, Clopidogril, Amidarone 100mg, and 200mg, Atrovostati Isosorbide, Amlodipin, Ramipril, Telmisartan, Atenolol and Digoxin.

Medical Dispensary in Visakha Steel General Hospital

- On visiting each room, they learnt about the generic names of different drugs, the commonly dispensed drugs like Propranolol, Clopidogril, Glipizide, Acarbose etc. which are stored in medical stores.
- They have shown them the TROT T sensitive kit which is used in Angiogram.
- And newly available drugs like Elixim which is used in removing clots in Cardiac problems etc.

By visiting '**Visakha Steel General Hospital**', students practically learnt about the running of Hospital Pharmacy, Storage of medicines, Dispensing them to In and Out-patients in time in a systematic manner.
